TECHNICAL SKILLS

Languages: C, C++, JavaScript, Python
Frameworks: ReactJS, NodeJs, ExpressJS, NextJs, Tailwind CSS, ShadcnUI
Data Tools : NumPy, Pandas, Plotly, Excel
Databases: PostgreSQL, MongoDB, NeonDB
Developer Tools: Git, GitHub, Socket.io, Prisma, Innjest, VS Code, Postman, Cloudinary, Figma, Vercel, Redux, Render
Soft Skills: Time Management, Leadership, Team Work, Communication, Content Writing, Presentation

EXPERIENCE

Papaya Coders Private Limited — MERN Stack Developer Intern
Feb 2025 - Aug 2025
- Developed a full-stack doctor appointment app using Next.js, React.js, NeonDB, Prisma & ShadcnUI; reduced development time.
- Implemented **secure login** with Clerk**, live video consultations, scheduling, and Razorpay payments gateway.**
- Improved DB queries and UI, cutting API load time by 35%; worked in a **team of 4 members**, boosted engagement by 60%.

ProgrammingKnowledge (YouTube, 1.8M+ Subscribers) - Freelance
March - June 2025
- Created 150+ **MERN Stack tutorials** as an **instructor** for a YouTube Channel, covering **concepts that reached 80K+ learners.**
- Contributed to one of the **largest programming YouTube channels**, with 95%+ positive feedback on **building development skills**.

PROJECTS

SENSAi - AI Career Coach App (Next.js, GEMINI Flash 1.5 API, Clerk, Inngest, Zod, NeonDB, Prisma ORM, ShadCN UI)
- Solved the problem of students in finding **industry insight, skill assessment, and career guidance** by **an AI-driven platform.**
- Integrated **AI-generated insights, quizzes, and resume letter generation** using **Gemini API**, improving session duration by 40%.
- Implemented secure login via Clerk, State management, and data visualization using react charts for a seamless and interactive UI.

WEAVOO - A SOCIAL MEDIA APP (ReactJs , NodeJs, ExpressJs, MongoDB, Redux, Socket.IO, Shadcn UI, Render)
- Built a MERN-based social media app with **posts, likes, comments, and profiles;** achieved 50+ user signups.
- Enabled **real-time chat & notifications with Socket.IO,** increasing user engagement time by 50%
- Used **Redux and Shadcn UI** to build a responsive, fluid experience across devices with 90%+ mobile compatibility.

PG-FilmyBook - A MOVIE REVIEW APP   (React.js, Redux, TMDB API, Tailwind CSS, Vercel)
- Built a high-performance movie review app with **ReactJS and Redux**, attracting over 250+ unique visitors.
- Leveraged **TMDB API** and **Tailwind CSS** to provide extensive data and a visually appealing UI, deployed on **Vercel**.
- Incorporated a powerful recommendation engine for personalized movie discovery, boosting user engagement by 75%.

EDUCATION

B.Tech (Computer Science) - 8.21 CGPA	**AKGEC, 2022-26**
CLASS 12th - 93%	**D.A.V. Academy 2021**
JEE MAINS - 92.5 %ile	**2022**

ACHIEVEMENTS

1st Rank – State Level Science Exhibition
Innovated and presented a working model, "River Garbage Separator," capable of cleaning floating garbage in rivers within minutes.
'A' Grade – National Level Science Exhibition
Represented state among 16 others at the national level, receiving commendation for originality and problem-solving.

EXTRA-CURRICULAR

COORDINATOR - Training & Placement Cell
Led **data management** and helped coordinate **campus placements**, improving student-employer engagement and event execution.
SPEED PROGRAM - MEMBER
Selected among top 20 students for the **Student Excellence Program**, responsible for **organizing technical labs and coding sessions.**
GOONJ - THE DRAMATIC SOCIETY, AKGEC
Managed the team of **35 members** as the Head **Acting & Writing** Coordinator.
